## News Release

# YRC Worldwide Launches HNRV Logistics™

**TECH.TRUCKS.TOGETHER.™**

OVERLAND PARK, Kan., December 3, 2018 -- In this new era of tight capacity, YRC Worldwide Inc. (NASDAQ: YRCW) is well positioned to respond to the complexities of our customers' supply chains with a suite of solutions that complement our less-than-truckload (LTL) services. By combining one of the world's largest LTL networks with a freight brokerage and customer-facing transportation management system (TMS), YRCW is building the future of logistics.

"We are excited to leverage the enterprise synergies of **Holland**, **New Penn**, **Reddaway**, **YRC Freight** and now **HNRV Logistics** to bring more value to our customer base," stated Darren Hawkins, chief executive officer of YRC Worldwide. With a North American focus, HNRV Logistics is comprised of five service divisions: Truckload Direct, Express Direct, Residential Direct, Engineered Solutions and Contract Logistics.

HNRV Logistics blends cutting-edge technology and multi-mode solutions with our fleet of nearly 60,000 assets. This hybrid logistics model gives the customer a convenient one-stop-shop for all of their capacity needs.

"After studying market trends and customer demand, we opted to build our own in-house freight brokerage and offer a carrier-direct TMS shipping portal (**myHNRV™**)," stated Hawkins. "Our customers will have a single access point to our entire network and brokerage – from rate shopping to dispatch to tracking to payment – creating a seamless digital customer experience."

"In addition to the TMS product, we have developed an online Corporate Account Management Portal (**campHNRV™**) to enhance our logistics services for enterprise customers, including robust digital tools for case management, data analytics and more," stated Hawkins.
