YRC Worldwide Reports First Quarter 2017 Results

OVERLAND PARK, Kan., May 4, 2017 — YRC Worldwide Inc. (NASDAQ: YRCW) reported consolidated operating revenue for first quarter 2017 of \$1.171 billion and a consolidated operating loss of \$3.0 million, which included a \$2.7 million loss on property disposals. As a comparison, for the first quarter 2016, the Company reported consolidated operating revenue of \$1.120 billion and consolidated operating income of \$13.4 million, which included a \$0.3 million gain on property disposals.

"Our Regional carriers' first quarter 2017 results were generally in line with a year ago, including an increase in year-over-year tonnage per day," said James Welch, chief executive officer at YRC Worldwide. "YRC Freight's results in the first quarter were unfavorably impacted by a year-over-year decrease in revenue per hundredweight, excluding fuel surcharge, that more than offset increases in tonnage per day and weight per shipment. We expect the improvement in year-over-year tonnage per day to help us execute our strategy of pricing for profitability and moving shipments through YRC Freight, Holland, Reddaway and New Penn's networks that have favorable freight characteristics. We believe the pricing environment remains stable in the less-than-truckload sector. Our goal in 2017 is to exceed our 2016 Adjusted EBITDA results while meeting our customers' needs," stated Welch.

"We continuously evaluate opportunities to drive improvements in operational efficiencies and financial results, including tightly managing our cost structure. During the first quarter we implemented a plan to reduce costs and de-layer our management and other non-union workforce. Headcount reduction is the most significant source of savings while other changes included increasing collaboration across our companies and reducing the utilization of external professional services," concluded Welch.

Financial Highlights

- On a non-GAAP basis, the Company generated consolidated Adjusted EBITDA of \$43.2 million in first quarter 2017 for an Adjusted EBITDA margin of 3.7% compared to \$62.9 million and 5.6%, respectively, in the prior year comparable quarter (as detailed in the reconciliation below).
- Last twelve month (LTM) consolidated Adjusted EBITDA is \$277.8 million for an adjusted EBITDA margin of 5.9% compared to \$337.4 million and 7.1%, respectively, in 2016.
- The total debt-to-Adjusted EBITDA ratio for first quarter 2017 was 3.62 times compared to 3.20 times for first quarter 2016. This complied with the 3.85 times maximum total leverage ratio covenant as of March 31, 2017 under the Term Loan Credit Agreement.
- Reinvestment in the business continued during first quarter 2017 with \$16.3 million in capital expenditures and new operating leases for revenue equipment with a capital value equivalent of \$8.4 million, for a total of \$24.7 million. This is equal to 2.1% of operating revenue for the quarter.
- To streamline overhead and augment operational efficiencies, the Company implemented a plan during the first quarter 2017 to eliminate approximately \$25 million of costs over the next year. The savings include rightsizing the management and other non-union workforce by approximately 180 positions.

Operational Highlights

- The consolidated operating ratio for first quarter 2017 was 100.3 compared to 98.8 for the same period in 2016. YRC Freight's operating ratio was 101.4 compared to 99.4 in first quarter 2016 and the Regional segment's operating ratio of 97.2 was in line with the prior year's 97.1.
- First quarter 2017 tonnage per day increased 3.4% at YRC Freight and 2.1% at the Regional segment compared to first quarter 2016.
- At YRC Freight, including fuel surcharge, first quarter 2017 revenue per shipment increased 1.8% and revenue per hundredweight increased 0.5% when compared to the same period in 2016. Excluding fuel surcharge, revenue per shipment decreased 0.4% and revenue per hundredweight decreased by 1.7%.
- At the Regional segment, including fuel surcharge, first quarter 2017 revenue per shipment increased 4.4% and revenue per hundredweight increased 2.5%. Excluding fuel surcharge, revenue per shipment increased 2.0% and revenue per hundredweight increased 0.2%.

Liquidity Update

- At March 31, 2017, the company had cash and cash equivalents and Managed Accessibility (as defined in the company's most recently filed periodic reports on Forms 10-K and 10-Q) under its ABL facility totaling \$202.0 million compared to \$222.1 million as of March 31, 2016.
- For the three months ended March 31, 2017, cash used in operating activities was \$25.9 million compared to cash used in operating activities of \$11.1 million for the three months ended March 31, 2016.

Review of Financial Results

YRC Worldwide Inc. will host a conference call with the investment community today, Thursday, May 4, 2017, beginning at 4:30 p.m. ET.

A live audio webcast of the conference call and presentation slides will be available on YRC Worldwide Inc.'s website www.yrcw.com. A replay of the webcast will also be available at www.yrcw.com.

Non-GAAP Financial Measures

EBITDA is a non-GAAP measure that reflects the company's earnings before interest, taxes, depreciation, and amortization expense. Adjusted EBITDA (defined in our credit facilities as Consolidated EBITDA) is a non-GAAP measure that reflects the company's earnings before interest, taxes, depreciation, and amortization expense, and further adjusted for letter of credit fees, equity-based compensation expense, net gains or losses on property disposals, restructuring professional fees, nonrecurring consulting fees, expenses associated with certain lump sum payments to our union employees and gains or losses from permitted dispositions and discontinued operations, among other items, as defined in the company's credit facilities. EBITDA and Adjusted EBITDA are used for internal management purposes as a financial measure that reflects the company's core operating performance. In addition, management uses Adjusted EBITDA to measure compliance with financial covenants in the company's credit facilities and to pay certain executive bonus compensation. However, these financial measures should not be construed as better measurements than net income, as defined by generally accepted accounting principles (GAAP).

EBITDA and Adjusted EBITDA have the following limitations:

- EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or fund principal payments on our outstanding debt;
- Adjusted EBITDA does not reflect the interest expense or the cash requirements necessary to fund restructuring professional fees, nonrecurring consulting fees, letter of
 credit fees, service interest or principal payments on our outstanding debt or lump sum payments to our union employees required under the ratified Memorandum of
 Understanding;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will have to be replaced in the future and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements;
- Equity-based compensation is an element of our long-term incentive compensation program, although Adjusted EBITDA excludes certain employee equity-based compensation expense when presenting our ongoing operating performance for a particular period;
- · Other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, our non-GAAP measures should not be considered a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using our non-GAAP measures as secondary measures. The company has provided reconciliations of its non-GAAP measures to GAAP net income and operating income (loss) within the supplemental financial information in this release.

Forward-Looking Statements

This news release contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Words such as "will," "expect," "intend," "anticipate," "believe," "could," "would," "should," "may," "project," "forecast," "propose," "plan," "designed," "enable," and similar expressions which speak only as of the date the statement was made are intended to identify forward-looking statements. Forward-looking statements are inherently uncertain, are based upon current beliefs, assumptions and expectations of Company management and current market conditions, and are subject to significant business, economic, competitive, regulatory and other risks, uncertainties and contingencies, known and unknown, many of which are beyond our control. Our future financial condition and results could differ materially from those predicted in such forward-looking statements because of a number of factors, including (without limitation): general economic factors; business risks and increasing costs associated with the transportation industry; competition and competitive pressure on pricing; the risk of labor disruptions or stoppages; increasing pension expense and funding obligations; increasing costs relating to our self-insurance claims expenses; our ability to finance the maintenance, acquisition and replacement of revenue equipment and other necessary capital expenditures; our ability to comply and the cost of compliance with, or liability resulting from violation of, federal, state, local and foreign laws and regulations; impediments to our operations and business resulting from anti-terrorism measures; the impact of claims and litigation expense to which we are or may become exposed; failure to realize the expected benefits and costs savings from our performance and operational improvement initiatives; our ability to attract and retain qualified drivers and increasing costs of driver compensation; privacy breach or IT system disruption; risks of operating in foreign countries; our dependence on key employees; seasonality; changes in the cost of fuel or the index upon which we base our fuel surcharge and the effectiveness of our fuel surcharge program in protecting us against fuel price volatility; our ability to generate sufficient liquidity to satisfy our cash needs and future cash commitments, including (without limitation) our obligations related to our indebtedness and lease and pension funding requirements, and our ability to achieve increased cash flows through improvement in operations; limitations on our operations, our financing opportunities, potential strategic transactions, acquisitions or dispositions resulting from restrictive covenants in the documents governing or existing and future indebtedness; our failure to comply with the covenants in the documents governing our existing and future indebtedness; fluctuations in the price of our common stock; dilution from future issuances of our common stock; our intention not to pay dividends on our common stock; that we have the ability to issue preferred stock that may adversely affect the rights of holders of our common stock; and other risks and contingencies, including (without limitation) the risk factors that are included in our reports filed with the SEC, including those described under "Risk Factors" in our annual report on Form 10-K and quarterly reports on Form 10-Q.
